Page Selector Fixture

This fixture verifies that `@page :first` / `@page :left` / `@page :right` selectors override the default @page rule per page:

- Page 1 (:first): no top-center header.
- Page 2 (:left, even): "Left" appears top-left.
- Page 3 (:right, odd): "Right" appears top-right.

Filler.

Filler so content reaches page 2.

More filler.

More filler still.

Page 2 Heading

This page is :left (even). The default top-center remains, plus "Left" should appear top-left.

Filler to reach page 3.

More filler.

Page 3 Heading

This page is :right (odd). The default top-center remains, plus "Right" should appear top-right.
